ABOUT ME

I am a highly motivated Software Engineer with a strong foundation in full-stack development, focused on building scalable, user-friendly web and mobile applications. From front-end interfaces to back-end systems, I enjoy solving real-world problems through clean, scalable code and intuitive design. Over time, I've built and contributed to various projects across frontend, backend, and mobile platforms. Please check my portfolio web page or GitHub account to see some of my work.

Career Goals

I'm focused on gaining deeper expertise in software architecture, building more robust backend systems, and exploring cross-platform app development. Long-term, I aim to contribute to impactful software products and join a team where learning and innovation are valued.

SKILLS & TOOLS

HTML5	CSS3	Tailwind	JavaScript	Python
Figma	GitHub	Git	Android Studio	Java
MS tools	MySQL	Canva	Canva	Netlify

EXPERIENCE

Freelance

2023

WEB & MOBILE DEVELOPER

Built responsive websites and mobile apps for clients and personal projects using HTML, CSS, Tailwind, Django, Python, and Java. Delivered clean UI, mobile responsiveness.

Key Highlights:

- Developed websites (portfolio, cake shop, fashion store, yacht/jet booking) using Tailwind CSS.
- Integrated Django + MySQL for dynamic clinic and e-commerce platforms.
- Built Android apps with Java (e.g., weather app).
- Created Python tools like a currency converter using APIs.
- Focused on dark mode, mobile menus, and responsive design.

Skills: HTML, CSS, Tailwind, Java, Android Studio, Python, Django, MySQL, Git
