ABOUT ME

I'm a Passionate Software Engineer and Web Developer with hands-on experience building responsive websites, software tools, and digital solutions for real clients and organizations. Foundation in frontend, backend, and Android development, with a commitment to continuous learning and delivering value. Seeking opportunities to contribute, grow, and positively impact the tech community.

Career Goals

To grow as a professional Software Engineer by working in a challenging environment, building real-world projects, collaborating with experienced teams, and continuously improving my technical and problem-solving skills.
